Community Kitchen Helps Culinary Entrepreneurs

Thursday, August 5, 2010 12:10 pm

Perth County - It is now a little easier to start a food preparation business or simply eat more local foods all year round in Perth County.

Affordable kitchen space is being offered at the Community Center in Mitchell and the Perth East Recreation Complex in Milverton.

Economic Development Coordinator Bernia Wheaton says the community kitchen project will encourage more people to enjoy local fare and will educate the public about the wide variety of local products available.

Wheaton says it is a pilot project so bookings can be made likely until late October, feedback will be evaluated and then it will be determined if shared-use kitchen space should be available all year round.

She adds classes will also be offered to provide information on how to best prepare and preserve local foods.

Visit www.perthcounty.ca and go to the "Business in Perth County" tab or call 519-271-0528 for more information about the community kitchen pilot project in Perth County.
