#PeopleofPerthCounty: Homegrown Journeys

Beautifully Crafted, Happily Rooted

When we last connected with Kahley, founder and principal designer of Ambiance Interiors, her creative vision was transforming homes and spaces across Perth County. Based in Atwood, in the heart of North Perth, she continues to lead her business with passion and purpose by crafting interiors that reflect both beauty and function for clients throughout the region.

What keeps Kahley rooted here is more than just business. With her children well-established locally, her family deeply involved in farming, and everything she needs close at hand, relocating has never crossed her mind. "We like to visit the city," she says, "but prefer the country life by far."

For Kahley, Perth County offers the perfect balance - small-town charm paired with exciting growth. "There's so much talent and opportunity here," she notes. From skilled trades and kids' programming to vibrant community events and exceptional culinary experiences, she sees the region as thriving.

Kahley's appreciation for the area runs deep, and it's this connection to community that continues to shape her work at Ambiance Interiors. Whether she's designing a cozy farmhouse kitchen or a contemporary living space, her approach is always grounded in understanding the needs and lifestyle of her clients - many of whom share her love for the Perth County way of life.
