

If you are using the Google Chrome browser and experiencing an error with map data loading, please follow the steps below to resolve the issue:

### Chrome Settings

1. Click on the View Site Information icon to the left of the web address (looks like a padlock, or if the site is not secure it may say 'Not Secure')

2. Click "Site Settings"
3. Scroll down to "Insecure content" and select "Allow" from the dropdown.
4. Scroll back up and click on the back arrow next to the site name (gis.perthcounty.ca).
5. Close the tab and try launching the site again. It should appear like this now:

If you have completed the above steps and you are still experiencing an error, please email [gis@perthcounty.ca](mailto:gis@perthcounty.ca) for further assistance.
