ALPHABETICAL DIRECTORY STRATFORD 1985

EXPLANATION

1. The Christian name appearing alone in brackets is the name of spouse.
2. In some cases the designation, widow, has been omitted by request.
3. Names in bold print are those of firms which subscribe to or advertise in this City Directory. Names in capital letters are those of proprietors, partners or executives of these firms.
4. Business firms which are individual proprietorships or partnerships are indicated by listing the names of the owner or partners in brackets: Plaza Groceries (John B. Scott, Wm. Noble). Conversely, a firm name in brackets after an individual's name indicates that he is an owner or partner in the firm.
5. The householder or head of the house (owner or tenant) is indicated by h preceding the street address. Other members of the family, roomers and boarders do not have this designation. To determine whether the householder is owner or tenant, refer to the pink section, where home ownership is indicated by an asterisk (*).
6. The information in this directory has been gathered from original sources and the Publishers have made every effort to ensure completeness and accuracy. They cannot guarantee the complete absence of errors and assume no responsibility therefor. You are requested to draw any inaccuracies to the attention of the Publishers so that corrections may be made in the next edition.

ARE YOU GETTING

YOURS?

This is the time of the turtle. This little animal has survived the primordial world for 200 million years and may well plod on long after whales and human beings have vanished. The turtle has been a paragon of adaptability, having had a successful response for every new predator or environmental gangster. It's the perfect animal emblem for the survival oriented conservatism now creeping across the land. Slow starters and trusty haulers are in demand. Remember what happened to the hare?

Your City Directory can help you and your company become an evolutionary champ like the turtle, using properly verified information about carefully selected clients. You can achieve a higher closing / interview ratio, at a minimal amount of time and travelling expense. A current City Directory should be the backbone of every business. Don't make a move without it!

THE PHONE

Most of us will spend two years of our lives on the telephone. They are not likely to be the best two years. Your phone rings. You pick it up, say *"hello,"* and a gruff voice barks, *"who's this?"*.

You place a call.

Someone on the other end of the line answers, *"one moment please"* — and you sit there — three minutes before anything else happens.

You try to call Jones.

His office asks, *"May I tell him who's calling?"* before they'll admit he's in.

Another irritant: *"What is this in reference to?"* You might break that logjam by saying it's about his wife's gambling debts.

Maybe the all-time crusher, is when you answer your phone to be told Mr. Smith is calling and will be right with you. Then you sit there, seething, for another three minutes before Smith comes on. The telephone is one of life's miracles.

With a little thoughtfulness, we could make it one of life's blessings. Worth trying, isn't it?

"YOUR AD"

WILL MAKE THE DIFFERENCE

A lawyer specializing in consumer causes for the state of Connecticut has asked the telephone company to scramble its Yellow Pages on the grounds that they're unfair.

He claims that the Yellow Pages mislead people. When they're looking for a plumber, say, they start with the A's, even though better plumbers may be buried in the H's or W's. This means that businesses and services at the beginning of the alphabet have an edge. In other words, the A's have it over all the rest.

The lawyer's remedy is to have the telephone company print half the subject listings in the Yellow Pages in alphabetical order and half in reverse alphabetical order. Half would start with A and half with Z. Either way, of course, the M's and N's would be stuck in the middle.

Is there any justice? Why not start the first business listing with the A's the second with the B's the third with the C's, and so on until every letter has a turn at the top?

Incidentally, the lawyer's name is Zitser.

when to stop advertising?

Advertising should be stopped —

When you expect to go out of business.

When there is nothing about your business that people ought to know.

When you don't want new customers.

When people never become dissatisfied with one firm and go to another.

When the public stops being born, stops dying, stops forgetting.

In other words when a firm is coasting it's generally going down hill.
