DOESN'T COST ONE CENT

WORTH A MILLION

FOR YOU TO READ THIS AD.

"Getting what you want is success; and success is an effect, coming from the application of a cause. The cause of success is always in the person who succeeds. Success is the same in all cases, and the cause of success is the same in all cases, and the cause of success is in the person; therefore, the cause of success is in you, for all minds are formed of the same essential elements, and contain the same faculties; the only difference of faculty is in degree of development. For example: The faculty of memory is more highly developed in some than in others, but all have memory; and those who have not enough, can develop more. It is therefore mathematically certain that you can succeed if you will find out the cause of success and develop it to sufficient strength, for the application of a sufficient cause can not fail to produce a given effect. All you have to learn is what is the cause of success, and how it must be applied. What it is and how to develop it will be fully explained in the course of psychology, salesmanship and business efficiency given at the Canada Business College of Stratford, Ontario."

"The Biggest Little Business College in Canada. We are preparing for our third year on a bigger basis than our competitors who have been here a third of a century. There are reasons for our success. These are a few of them: Tuition only ten dollars per month, others charge fourteen. Books free for tuition in advance. Tuition ceases when you pay for seven months. Our students stay with us until they are experts. Business men want that kind of help. We have a competent staff of teachers, all specialists in their branch. We have the most up-to-date equipment money can buy, we have seven makes of typewriters, many Business Colleges have but one. We teach you while in school to use the omnigraph, neostyle, mimeograph, adding machine, etc. Other schools leave that part for you to get after you take a position."

Do your friends a service by sending us their names and telling us the course they would be likely to require. We teach Short-hand, Bookkeeping, Typewriting, Telegraphy, Psychology, Salesmanship and Business Efficiency.

HARDWOOD FLOORS

are beautiful, economical, durable, healthful and labor saving. They are the common-sense answer to the floor question.

RATHBONE OAK VENEER FLOORING

can be put down perfectly by any carpenter or by the man of the house if he is handy with tools. Being only three-eighths of an inch thick it is light and easy to handle, and even with strenuous wear it will last longer than the house itself.

WRITE FOR FOLDER

Write for free folder which gives full particulars. State size of your room and we will quote you cost of flooring in quarter-cut white oak, plain red oak or birch.

Asked for His Reasons

for carrying Life insurance with The Manufacturers Life, one of our large Policyholders cogently replied:

1st.—“In case I do not accumulate a competence, or meet with reverses in business, I know my wife and family will not become objects of charity, as my Life Insurance will supply sufficient funds for their needs.”

2nd.—“Life Insurance is always the first asset realized on—so, if at my demise, the time is not opportune to dispose of my other assets, my Executors will not need to sacrifice same to obtain ready money.”

3rd.—“It is the only way I can make absolutely sure of providing for my dependents.”

4th.—“It is the very essence of good business.”
